Codeset 769 KNX

This ApplicationNote is based on the KNX interface SKX-LINKER from www.zennio.com.

The screenshot displays the Zennio website interface in Internet Explorer. The browser's address bar shows the URL: http://www.zennio.com/index.php?option=com_content&view=article&id=538&Itemid=93&lang=en. The website header includes the Zennio logo, the date '06 / July / 2009', and language selection options. A navigation menu lists: HOME, PRODUCTS, ADVANTAGES, DOWNLOADS, SUPPORT, BLOG, DISTRIBUTORS, CONTACT. On the left, a 'Products Menu' lists various models, with 'SKX-LINKER' highlighted in red. Below it, a 'Product catalogue' section offers links in multiple languages. The main content area features the title 'SKX-LINKER Bus to RS - 232 Interface' and a link to 'Technical Documentation'. The central image shows the SKX-LINKER device with labels for 'ZENNIO', 'SKX-LINKER', 'ZNRX-RS232', 'LED', 'PROG', 'RS232', and '5-20Vdc'. The device also has a CE mark and 'Made in Spain' text. At the bottom of the page, a footer states: 'SKX-LINKER is a Bi-Directional Communication Interface to integrate Philips "Pronto" Control Panels.' The Windows taskbar at the bottom shows several open applications, including Microsoft Office, Visual Basic, GlobalSCAPE, CodeVisionAVR, SKX-LINKER, CorelDRAW, and Zennio.doc, with the system clock showing 17:33.
